

HIGHGATE SOCIETY

A/V and Wi-Fi at 10A

There is free Wi-Fi access at 10A. The login details are on the wall in the corner of the hall on the right as you enter. The details are periodically changed.

Other A/V facilities may be available by special arrangement as below:

The hall can be used in one of two layouts if you wish to project onto a screen. A: Facing back window (multiple rows of chairs - 50 chairs max.). B: Facing right hand wall (chairs laid out in semi-circles - 30 chairs max.)

A: There is a large folding screen, data-projector, and computer and projector stands along with cables for this layout. (VGA only).

B: There is a motorised roll down screen, short-throw data-projector and computer and projector stands along with cables and adapters for this layout. (VGA / XGA with HDMI).

The audio facility (microphones / USB / bluetooth amplification and loudspeakers) can be used in either layout. There is also a wireless lavalier (tie-clip) microphone and two wireless handheld microphones together with two microphone stands (table top and floor-standing).

If you want to use the hall for a 'hybrid' meeting, where some participants are on Zoom, there are also two table-top conference speaker/microphones. Up to about 15 people should be easy for Zoom participants to hear.

Detailed user guides will be provided for all equipment.

If you have queries about this aspect of the facilities please contact it@highgatesociety.com
