

# Archway Road

Traffic over the 3 month period from 4 January to 4 April 2026

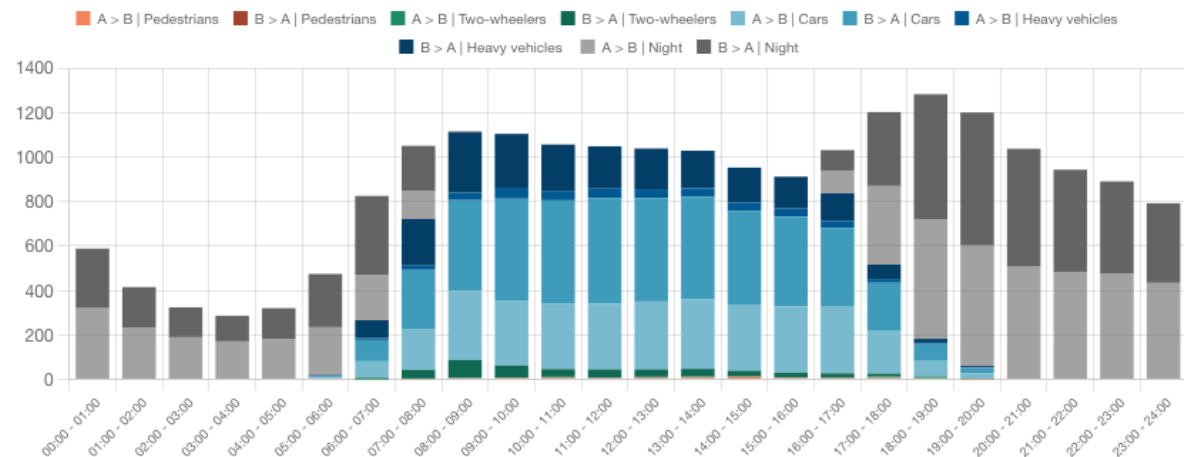

Archway road, London GB

9000010094

Archway road, London 04-01-2026 → 04-04-2026

## 24 hour average per direction

- Average of 20,588 vehicles / day
- This device is located south of the Shepherds Hill junction and does not capture nearside pedestrian movements.
- Clear morning peak between 8.00 with a longer and higher evening peak between 17.00 and 20.00.
- Over 20% of vehicles exceed 24mph. This was a period when the speed limit for Archway Road was 30mph. Speeds are not measured when it is dark, and as this is when traffic is lighter, and vehicle speeds are likely to be higher, illegal speeds are more likely.

- High levels of overnight traffic. For example between 23.00 and 24.00 there are on average 800 vehicles and the volume never drops much below 300 even between 03.00 and 04.00.
- High levels of heavy vehicles with 23% of the total. Of these 8.0% are HGVs and 9.1% are light trucks.
