

Chetwynd Road

Traffic over the 3 month period from 4 January to 4 April 2026

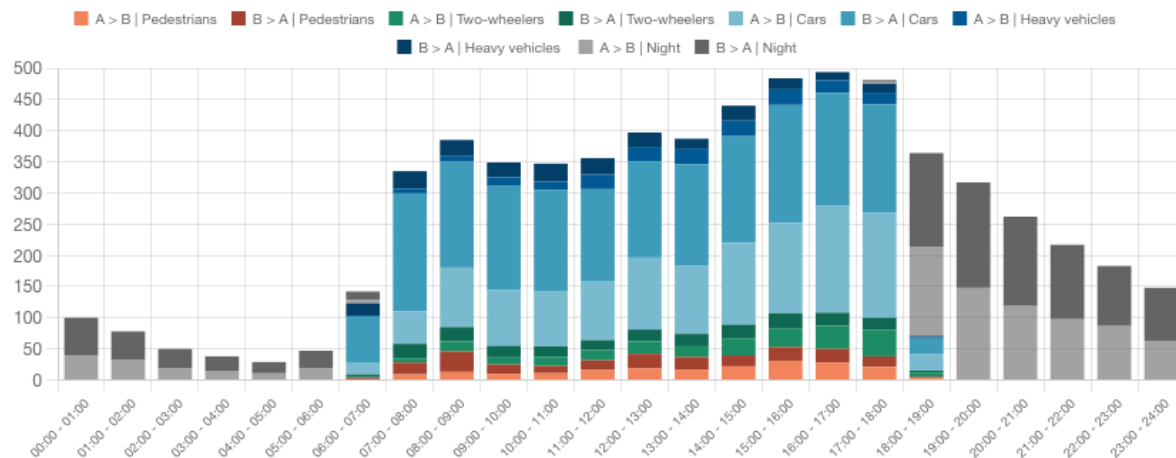

Chetwynd Road, London GB

9000010109

Chetwynd Road, London 08-03-2026 → 15-03-2026

24 hour average per direction

- Average of 5,317 vehicles / day
- Lower numbers of vehicles at weekends, especially lower numbers of heavy vehicles.
- Traffic peaks in the evening around 15.00 to 18.00, with a lower peak 8.00 to 9.00
- Two wheelers are 9% of which 7.4% is cyclists, although absolute numbers are quite low.
- Heavy vehicles are 9.9%, and these are nearly all vans rather than HGVs, which is to be expected due to the nature of the road and the width restriction for vehicles entering at the Highgate Road end.
- Pedestrian traffic is 8.2% and peaks at 8.00 to 9.00 and around 15.00 to 17.00
- More than for other locations there was an increase in pedestrians and cyclists as the weather improved in March. Proximity to the Heath may be a factor.

- Chetwynd Road data provided by Camden in the Dartmouth Park Healthy Neighbourhood papers showed 5,916 vehicles on average.
